

STATUTORY CORPORATE GOVERNANCE

Corporate Legal & Governance Policy Charter

Standard Data Protection, Telemetric Non-Disclosure Protocols, and Commercial Terms of RFQ Engagement.

Directorate of Legal Affairs & Board Secretariat

Asterra Manufacturing Group S.C. // Industrial Zone 4, Addis Ababa, Ethiopia // Share Company Reg. No. 09-412

GOVERNANCE DECLARATION

This Charter sets forth the formal regulatory frameworks governing commercial inquiries, technical engineering drawings, customer telemetry data, and contractual terms of supply for all contracting partners engaging with Asterra Manufacturing Group S.C. and its four specialized production divisions.

SECTION I: PRIVACY & INDUSTRIAL DATA GOVERNANCE POLICY

1. Technical Data & Proprietary Drawings Non-Disclosure

All architectural drawings, bill of quantities (BOQ), CAD models, and material requirements uploaded through our corporate portals or transmitted to our estimating directorships are processed under strict commercial Non-Disclosure Agreements (NDA). Asterra Manufacturing Group S.C. maintains segregated digital repositories with AES-256 encryption at rest to guarantee your proprietary intellectual property is never exposed to third-party inspection.

2. Scope of Telemetric Data Processing

We collect operational telemetry, device identifiers, and commercial contact parameters solely for quotation validation, compliance tracking, and plant capacity scheduling. Telemetric records are never monetized, leased, or transmitted to outside advertising networks.

3. Retention & Audited Destruction

Commercial inquiries and engineering dossiers not progressing to active manufacturing contracts are automatically scrubbed from active storage after 180 days. Executed project specifications are archived in air-gapped compliance vaults for seven (7) years in accordance with Ethiopian and international commercial law audit standards.

SECTION II: TERMS OF RFQ & CORPORATE ENGAGEMENT

1. Scope of Quotations & Technical Feasibility

All preliminary quotations, capacity allocations, and lead time estimates generated through this website represent commercial indications subject to formal technical review, raw material mill cert availability, and an executed contract bilaterally signed by Asterra Group authorized officers.

2. Quality Benchmarks & Warranty Terms

Every fabricated structural member, precast concrete panel, and polymer piping system is manufactured strictly in conformance with ISO 9001:2015, EN 1090-2 (EXC3), AWS D1.1, and EN 12201 standards. Material Test Certificates (EN 10204 3.1) are issued with all delivered lots.

3. Intellectual Property Protection

All technical whitepapers, architectural case study photographs, brand trademarks, and proprietary mix designs displayed on this website remain the sole intellectual property of Asterra Manufacturing Group S.C.

Corporate Legal Desk Contact

For certified copies of corporate governance resolutions, supplier compliance audits, or formal NDAs, direct official correspondence to: **legal@asterragroup.com** or the Executive Secretariat Desk, Industrial Zone 4, Addis Ababa, Ethiopia.
